Grecia, Alajuela

### LANGUAGES

- Spanish.
- English.

### EXPERTISE

- SQL Databases.
- Backend (Java).
- Frontend (React).
- Repository management.
- Agile methodologies.
- Object oriented, functional and reactive development.

### EXPERIENCE

#### CENFOTEC University - Instructional Design

SJO - Costa Rica

2019 - 2020

Created and enhanced instructional material to facilitate comprehensive understanding of course topics, also served as a programming tutor to help students.

#### One Consulting Group - Developer

SJO- Costa Rica

2020 - 2021

Contributed to the successful implementation of a new system as an outsourced developer, playing a key role in revising the database design and developing both the backend and frontend components.

#### GRUPO FINANCIERO CAFSA - System Analyst

SJO - Costa Rica

2021 - present

Currently serving as the lead developer I spearhead the design and architecture of the system while actively contributing to development tasks. Additionally, I play a pivotal role in coordinating a small team of developers.

### EDUCATION

#### Universidad de Costa Rica

**Bachelor's degree in Spanish Philology, Linguistics and Literature** (incomplete).

2009-2013

#### CENFOTEC University

**Bachelor's degree in Software Engineering.**

2015-2023

Expected graduation: December, 2023.
